# Why Greens ?

As suppliers of NZs leading wheelbarrows, Greens know a thing or two about barrows!

Since 1856 in England, the Greens family have been involved in the manufacturing of steel products. In 1935, Peter Green founded Coach Works in Hamilton, New Zealand. They manufactured trailers, couplings, farm, household and other steel products and eventually led to the launch of the Greens wheelbarrows range in 1975.

Since then, Greens wheelbarrows have become established as the number one brand in the New Zealand marketplace through a mixture of ingenious design, outstanding quality and customer service.

Today, the Greens brand offers a wide range of wheelbarrows from large trade barrows that can handle the toughest working conditions, through to the distinctive ECO Pink garden barrow - all offering the trademark Greens quality, design, and value - backed up with great customer service.

## 100% NZ OWNED AND OPERATED

Greens is 100% NZ owned and operated by Riverlea Group Ltd and committed to keeping NZ'ers working!

Local manufacturing and assembly means strict quality control, on-going after sales service and the availability of genuine replacement parts.

## 100% GUARANTEED

All Greens wheelbarrows are backed up with the Greens warranty offer. With up to 6 years cover on some wheelbarrows, we stand by our products.

## INNOVATION

Greens wheelbarrows are constantly being updated and improved to ensure that they meet the needs of the NZ market.

The many unique features built into every Greens barrow are testament to this, none more so than the Flat Free Smart-Tyre wheel. Featured on page 8, this is one of the many innovations that are helping to keep Greens wheelbarrows a New Zealand favourite!

## BOLT FREE TRAYS

The unique bolt-free tray system was pioneered by Greens on the Ezipour and Contractor wheelbarrows, and is now a feature on the majority of Greens trade wheelbarrows. This system makes for easy cleaning and no snagging of shovels.

The unique bolt-free tray attachment system attaches the tray to the heavy-duty frame and has no bolts protruding through the top of the tray.

# Garden barrows

## The Yardpro

For the professional gardener

- ✓ Wide UV protected poly tray
- ✓ Tough full sized galvanised frame
- ✓ 8" steel wheel with 350x8" tyre

Part no. 1260015  
55 Litre capacity  
Total weight 17.1kg

## Handiman Barrow

NZ favourite for over 25 years

- ✓ Powdercoated Seamless Steel  
0.8mm thick wall tray
- ✓ Lightweight galvanised frame  
Long lasting non rust frame
- ✓ 8" nylon pneumatic wheel with 350x8" tyre  
Light weight for easy maneuverability

Part no. 1230011  
51 Litre capacity  
Total weight 12kg

## ECO Garden Barrow

Light, strong & compact

- ✓ Strong UV Stabilised 5mm Poly Tray
- ✓ Rigid, lightweight, one piece, galvanised frame
- ✓ 8" nylon pneumatic wheel with 350x8" tyre

Part no. 1260011  
65 Litre capacity  
Total weight 9kg

## ECO pink barrow

Part no. 12426  
65 litre capacity  
Total weight 9kg

- ✓ Strong UV Stabilised 5mm Poly Tray
- ✓ Rigid, lightweight galvanised frame
- ✓ Nylon wheel with flat free tyre

# Trade barrows

## Steel tray

### The Loadmaster

The big performer

- ✓ **Easy Pushing**  
Steel rim with wide black-tread tyre for tough terrain
- ✓ **Bigger load - Lighter lift**  
Only 33.5kg lift with 147kg load
- ✓ **No Rust Frame**  
Long lasting, heavy duty tubular galvanised frame
- ✓ **Superior Balance & Control**  
Wide handles for extra stability and lateral control

Part no. 1370036  
110 Litre capacity  
Total weight 29kg

### The Contractor

A legend in the trade

- ✓ **Bolt Free Seamless Tray**  
Won't obstruct shovel - easy clean
- ✓ **Superior Balance & Control**  
Narrow and deep for easy pouring and balanced tipping
- ✓ **No Rust Frame**  
Galvanised inside and out
- ✓ **Tough Steel Construction**  
Impact resistant tray

Part no. 1350022  
72 Litre capacity  
Total weight 22kg

**BEWARE OF IMITATIONS** **INSIST ON THE ORIGINAL**

### The Contractor Galvanised

A legend in the trade

- ✓ **Bolt Free Seamless Galvanised Tray**  
Rugged and long lasting
- ✓ **Superior Balance & Control**  
Narrow and deep for easy pouring and balanced tipping
- ✓ **No Rust Frame**  
Galvanised inside and out
- ✓ **Tough Steel Construction**  
Impact resistant tray

Part no. 1350031  
72 litre capacity  
Total weight 22kg

**BEWARE OF IMITATIONS** **INSIST ON THE ORIGINAL**

# Trade barrows

## Poly tray

### The Tradepro

The professionals choice

- ✓ **Advanced Spout For Accurate Pouring**
- ✓ **Fully Galvanised Frame - Inside & Out**
- ✓ **Wide Handles For Better Balance & Control**
- ✓ **Handle Slots To Control Long-Handled Tools**

Part no. 1390065  
90 Litre capacity  
Total weight 20.1kg

### The Ezipour

Tough when it counts

- ✓ **Bolt Free Tray**  
Won't obstruct shovel - easy clean
- ✓ **Superior Pouring**  
Narrow & deep tray with pourer spout
- ✓ **No Rust Frame**  
Galvanised inside and out
- ✓ **Heavy Duty Construction**  
UV Stabilised poly tray on trade quality frame

Part no. 1390043  
72 Litre capacity  
Total weight 17.5kg

### The Poly Contractor

Jack of all trades

- ✓ **Heavy Duty Construction**  
UV Stabilised poly tray on heavy duty frame
- ✓ **No Rust Frame**  
Galvanised inside and out
- ✓ **Larger Capacity**  
Huge 90 litre capacity
- ✓ **Superior Balance & Control**  
Wide handle for extra stability and lateral control

Part no. 1390023  
90 litre capacity  
Total weight 17.5kg

# SMART-TYRE™

Flat-free technology

## Puncture Proof

### Flat Free Wheel Kit - 400 x 8"

- ✓ Easy to push with excellent rebound - like an air tyre
- ✓ Suitable for trade use up to 200kg
- ✓ High quality polyurethane construction
- ✓ Tough outer skin - twice as strong as rubber
- ✓ Includes U-bolts and Spacers

**Never change another tyre!**

### About Smart-Tyre Technology

The Greens Smart-Tyre has been designed to excel in the most rugged environments.

Manufactured using the latest technology, the Greens Smart-Tyre is made of solid micro-cellular polyurethane foam. Manufactured in controlled conditions, this creates a tough outer skin that is twice as strong as rubber, is non-marking and is resistant to chemicals & abrasion.

The foam structure inside the tyre resembles a sponge with millions of tiny air pockets, giving the tyre a light feel with excellent 'bounce', while being guaranteed to be completely flat free.

Smart-Tyre flat free tyres provide similar bounce and load handling characteristics to an air filled tyre - with the benefit of never going flat. The chart below shows the advantages of the Smart-Tyre over against a pneumatic tyre.

COMPARISON	SMART TYRE	Air-Filled Pneumatic	Solid Rubber
Flat Resistance	Excellent	Poor	Excellent
Tyre Weight	Excellent	Excellent	Poor
Tyre Rebound	Excellent	Excellent	Poor
Abrasion Resistance	Excellent	Good	Good
Non-Marking	Excellent	Poor	Poor
Overall value	Excellent	Poor	Poor

Product no. 256650

## NZ'S TOUGHEST WHEELBARROWS JUST GOT TOUGHER!

Featuring

### SMART-TYRE™

Flat-free technology

- Guaranteed not go flat!
- Manufactured from micro-cellular polyurethane foam, using advanced technology
- Tough, non-marking, chemical resistant tread - twice as strong as rubber
- Excellent tyre rebound - easy to push
- Suitable for trade use - up to 200kg load

### Tradepro Xtreme
