greenswheelbarrows.co.nz

Why Greens?

As suppliers of NZ's leading wheelbarrows, Greens know a thing or two about barrows!

Since 1856 in England, the Greens family have been involved in the manufacturing of steel products. In 1935, Peter Green founded Coach Works in Hamilton, New Zealand. They manufactured trailers, couplings, farm, household and other steel products, which eventually led to the launch of the Greens wheelbarrow range in 1975.

Since then, Greens wheelbarrows have become established as the number one brand in the New Zealand marketplace through a mixture of ingenious design, outstanding quality and customer service.

Today, the Greens brand offers a wide range of wheelbarrows from large trade barrows that can handle the toughest working conditions, through to the distinctive ECO Pink garden barrow - all offering the trademark Greens quality, design, and value - backed up by great customer service.

100% NZ OWNED AND OPERATED

Greens is 100% NZ owned and operated by Riverlea Group Ltd and committed to keeping New Zealanders working!

Proudly assembled and kit-set in our Hamilton, New Zealand factory — backed by ongoing support and genuine replacement parts.

100% GUARANTEED

All Greens wheelbarrows are backed up with the Greens warranty offer. With up to 6 years' cover on some wheelbarrows, we stand by our products.

INNOVATION

Greens wheelbarrows are constantly being updated and improved to ensure that they meet the needs of the NZ market.

SMART-TYRE™
Flat-free technology

The many unique features built into every Greens barrow are testament to this, none more so than the Flat-Free Smart-Tyre wheel. Featured on page 8, this is one of the many innovations that are helping to keep Greens wheelbarrows a New Zealand favourite!

BOLT FREE TRAYS

The unique bolt-free tray system was pioneered by Greens on the Ezipour and Contractor wheelbarrows, and is now a feature on the majority of Greens trade wheelbarrows. This system makes for easy cleaning and no snagging of shovels.

The unique bolt-free tray attachment system secures the tray to the heavy-duty frame, with no bolts protruding through the top of the tray.

Garden Barrows

The Gardenpro For The Professional Gardener

- ✓ Wide UV protected poly tray
- ✓ Tough full sized Galvanised frame
- ✓ 8" steel wheel with 350x8" tyre

Part no. 1390075
70 litre capacity
Total weight 14.4kg

The Handicart

- ✓ Dual pneumatic wheels for advanced stability
- ✓ Easyhold handle for easier manoeuvrability

Part no. 1390080
70 litre capacity
Total weight 9kg

ECO Garden Barrow Light, Strong & Compact

- ✓ Strong UV stabilised 5mm Poly Tray
- ✓ Rigid, lightweight, one piece, Galvanised frame
- ✓ 8" nylon pneumatic wheel with 300x8" tyre

Part no. 1260011
65 litre capacity
Total weight 9kg

Trade Barrows

Steel Tray

The Contractor

A Legend In The Trade

- ✓ Bolt free seamless tray
Won't obstruct shovel - easy clean
- ✓ Superior balance & control
Narrow and deep for easy pouring and balanced tipping
- ✓ No rust frame
Galvanised inside and out
- ✓ Tough steel construction
Impact resistant tray

Part no. 1350022
67 litre capacity
Total weight 22kg

The Loadmaster

The Big Performer

- ✓ Easy pushing
Steel rim with wide black-tread tyre for tough terrain
- ✓ Bigger load - lighter lift
Designed for easy lifting, even under load
- ✓ No rust frame
Long-lasting, heavy-duty tubular Galvanised frame
- ✓ Superior balance & control
Wide handles for extra stability and lateral control

Part no. 1370036
100 litre capacity
Total weight 29kg

The Contractor Galvanised

A Legend In The Trade

- ✓ Bolt free seamless Galvanised tray
Rugged and long-lasting
- ✓ Superior balance & control
Narrow and deep for easy pouring and balanced tipping
- ✓ No rust frame
Galvanised inside and out
- ✓ Tough steel construction
Impact resistant tray

Part no. 1350031
67 litre capacity
Total weight 22kg

Trade Barrows

Poly Tray

The Ezipour

Tough When It Counts

- ✓ Bolt free tray
Won't obstruct shovel - easy clean
- ✓ Superior pouring
Narrow & deep tray with pourer spout
- ✓ No rust frame
Galvanised inside and out
- ✓ Heavy-duty construction
UV-stabilised poly tray on trade quality frame

Part no. 1390043
67 litre capacity
Total weight 17.5kg

The Tradepro

The Professional's Choice

- ✓ Advanced spout for accurate pouring
- ✓ Fully Galvanised frame - inside & out
- ✓ Wide handles for better balance & control
- ✓ Handle slots to control long-handled tools

Part no. 1390065
90 litre capacity
Total weight 20.1kg

The Poly Contractor

Jack of All Trades

- ✓ Heavy-duty construction
UV-stabilised poly tray on heavy-duty frame
- ✓ No rust frame
Galvanised inside and out
- ✓ Larger capacity
Huge 84 litre capacity
- ✓ Superior balance & control
Wide handle for extra stability and lateral control

Part no. 1390023
84 litre capacity
Total weight 17.5kg

SMART-TYRE™

Flat-free technology

Puncture-Proof Flat-Free Wheel Kit - 400 x 8"

- ✓ Easy to push with excellent rebound - like an air tyre
- ✓ Suitable for trade use up to 200kg
- ✓ High quality polyurethane construction
- ✓ Tough outer skin - twice as strong as rubber
- ✓ Includes U-bolts and Spacers

Never change another tyre!

About Smart-Tyre Technology

The Greens Smart-Tyre has been designed to excel in the most rugged environments.

Manufactured using the latest technology, the Greens Smart-Tyre is made of solid micro-cellular polyurethane foam. Manufactured under controlled conditions, the process creates a tough outer skin that is twice as strong as rubber, is non-marking and is resistant to chemicals & abrasion.

The foam structure inside the tyre resembles a sponge with millions of tiny air pockets, giving the tyre a light feel with excellent 'bounce', while being guaranteed to be completely Flat-Free.

Smart-Tyre Flat-Free tyres provide similar bounce and load-handling characteristics to an air-filled tyre - with the benefit of never going flat. The chart below shows the advantages of the Smart-Tyre compared with a pneumatic tyre.

COMPARISON	SMART TYRE	Air-Filled Pneumatic	Solid Rubber
Flat Resistance	Excellent	Poor	Excellent
Tyre Weight	Excellent	Excellent	Poor
Tyre Rebound	Excellent	Excellent	Poor
Abrasion Resistance	Excellent	Good	Good
Non-Marking	Excellent	Poor	Poor
Overall value	Excellent	Poor	Poor

Product no. 256650

NZ'S TOUGHEST WHEELBARROWS JUST GOT TOUGHER!

Featuring

SMART-TYRE™
Flat-free technology

- Guaranteed not to go flat!
- Manufactured from micro-cellular polyurethane foam, using advanced technology
- Tough, non-marking, chemical resistant tread - twice as strong as rubber
- Excellent tyre rebound - easy to push
- Suitable for trade use - up to 200kg load

Tradepro Xtreme

- ✓ Flat-free smart-tyre
Guaranteed not to go flat
- ✓ NEW! 'Twist' front stays
Designed for harsh frontal impact
